 vote of the electors of the local government by referendum, following preparation by the local planning agency, consideration by the governing body and notice. Provides definitions.
 The amendment's impact on local government expenditures cannot be estimated precisely. Local governments will incur additional costs due to the requirement to conduct referenda in order to adopt comprehensive plans or amendments thereto. The amount of such costs depends upon the frequency, timing and method of the referenda, and includes the costs of ballot preparation, election administration, and associated expenses. The impact on state government expenditures will be insignificant.

NO. 5 CONSTITUTIONAL AMENDMENT ARTICLE III, SECTION 21

Standards For Legislature To Follow In Legislative Redistricting
 Legislative districts or districting plans may not be drawn to favor or disfavor an incumbent or political party. Districts shall not be drawn to deny racial or language minorities the equal opportunity to participate in the political process and elect representatives of their choice. Districts must be contiguous. Unless otherwise required, districts must be compact, as equal in population as feasible, and where feasible must make use of existing city, county and geographical boundaries.

The fiscal impact cannot be determined precisely. State government and state courts may incur additional costs if litigation increases beyond the number or complexity of cases which would have occurred in the amendment's absence.

NO. 8 CONSTITUTIONAL AMENDMENT ARTICLE IX, SECTION 1 ARTICLE XII, SECTION 31

Revision Of The Class Size Requirements For Public Schools
 The Florida Constitution currently limits the maximum number of students assigned to each teacher in public school classrooms in the following grade groupings: for prekindergarten through grade 3, 18 students; for grades 4 through 8, 22 students; and for grades 9 through 12, 25 students. Under this amendment, the current limits on the maximum number of students assigned to each teacher in public school classrooms would become limits on the average number of students assigned per class to each teacher, by specified grade grouping, in each public school. This amendment also adopts new limits on the maximum number of students assigned to each teacher in an individual classroom as follows: for prekindergarten through grade 3, 21 students; for grades 4 through 8, 27 students; and for grades 9 through 12, 30 students. This amendment specifies that class size limits do not apply to virtual classes, requires the Legislature to provide sufficient funds to maintain the average number of students required by this amendment, and schedules these revisions to take effect upon approval by the electors of this state and to operate retroactively to the beginning of the 2010-2011 school year.
